No matter how fast the world changes, a business degree from the School of Business at AUD will prepare you for a rewarding career.
THE SCHOOL Follows INNOVATIVE TEACHING PRACTICES THROUGH CLOSE COLLABORATIONS WITH LEADING PRIVATE AND PUBLIC ORGANIZATIONS
A message from the Dean

In the School of Business (SB) at the American University in Dubai (AUD), we graduate job ready students. To that, the school combines innovative teaching practices with the most up-to-date knowledge. The prime location of AUD in Dubai’s Media and Internet Cities and the strong partnerships with key industries creates a unique learning experience for our students. In our classes, in addition to faculty with doctorates from renowned universities, students continuously benefit from field trips to local and multinational firms, live case studies led by industry experts, VIP guest speakers and lecturers, coaching, consulting projects and internship opportunities.

The SB offers a rigorous American style education with a Bachelor of Business Administration, a Master of Business Administration, an Executive Master of Business Administration and a Master of Intellectual Property and Innovation Management. The School of Business at AUD is accredited by the Association to Advance Collegiate Schools of Business (AACSB), which represents the most prestigious business accreditation in the world.

It is my pleasure to welcome you to the School of Business at the American University in Dubai.

Dr. Assaad Farah
Dean, School of Business
Why Business Administration at AUD?

The School of Business at the American University in Dubai is widely recognized by students and employers for its tradition of combining academic rigor with practical applications in teaching and research. The school aims to provide “job ready” graduates with a range of skills and professional knowledge that is desired by employers.

Faculty members are highly qualified professionals; they are in regular contact with the business community through research, consultancy, and professional associations. Their knowledge and experiences translate into a rigorous and intellectually rewarding environment for students.
The M.B.A at AUD

Generalist

The Master of Business Administration (M.B.A.) is an internationally-recognized post graduate degree designed to prepare students for a successful business management career. Generalist M.B.A. studies can be particularly useful for those pursuing an entrepreneurial career or a business position in the public sector, government, or private industry. Our M.B.A. program provides core studies and practical skills needed to excel in management and leadership positions.

The Generalist M.B.A. degree is valuable to people in business and administration irrespective of the industry or profession in which they may work due to the potential of the degree to lead to executive and managerial positions.

Finance Concentration

The common courses in our M.B.A. program expose our students to the functional areas of management. Students choosing the Finance Concentration will in addition gain competency in the tools required to effectively contribute to the financial decision-making process for a variety of businesses and organizations that require special understanding of financial analysis, financial management and financial systems.

Students are thoroughly prepared to evaluate, recommend and implement financial strategies in a variety of business organizations, both in the private and public sectors. Therefore the finance concentration allows students to develop a balance between overall management skills needed in all business situations, and the technical financial skills needed to work in the finance industry.
Management Concentration

Business leaders and managers require appropriate soft skills and technical tools to successfully lead their organizations and business units.

One of their main responsibilities is to plan and execute business operations in-line with the corporate mission and strategic priorities.

Beside the essential skills in making process-oriented decisions at the strategic and tactical levels, they also need profound knowledge in HR management, excellent leadership skills, and expertise in organizational development processes.

Organizations often need to pass through phases of transformation, innovation, and change. Without business professionals who are skilled at driving organizations through turbulent periods, those organizations will be set to fail.

M.B.A. students concentrating in Management will absolutely be ready to face and deal with episodes of instability, and lead their organizations and business units to success.

Marketing Concentration

Marketers focus on the strategies and processes necessary to profitably acquire and retain customers by discovering consumer needs, developing high-value products and services, communicating product and brand benefits, and arranging for efficient and effective distribution these products and services.

At the heart of marketing’s popularity is its ability to offer genuine opportunities for all kinds of individuals – those who see themselves having expansive interpersonal and communication skills, are particularly entrepreneurial, or those who see themselves as being highly logical and creative.

Our experienced faculty will provide you with high-quality learning experiences in and out of the classroom; experiences which will help foster the skills and tools needed for you to become a dynamic and forward-thinking marketing director or executive, brand and account manager, sales manager, marketing research analyst, or entrepreneur capable of success anywhere in the world.
M.B.A. Program Mission

The Mission of the M.B.A. program is to provide graduates who aspire to leadership and management roles within the field of business administration with the opportunity to pursue a high level of professional preparation that will enhance their prospective career options.

The M.B.A. curriculum is designed to ensure a broad and integrated conceptual coverage of the functional areas of business, by enabling the application of the concepts, principles, analytical research tools and techniques from the different business disciplines to guide decision making in the global environment of business. The program promotes strategic thinking, ethical values, social responsibility, and cultural diversity.
M.B.A. Program Student Learning Outcomes

Upon completion of the program, students will demonstrate that they have acquired:

1. Recognize the conceptual foundation of the functional disciplines of business and their applications.

2. Analyze solutions to complex business problems across a wide range of functional areas and business contexts including innovative and entrepreneurial settings.

3. Formulate recommendations and solutions for managerial problems and policy in their respective concentration area (for students in a concentration).

4. Assess functional and overall performance of contemporary and intricate business organizations using quantitative and qualitative research techniques.

5. Apply advanced business communication and presentation skills effectively and persuasively, both orally and in writing.

6. Evaluate the global and international environments of business, considering the environmental, ethical and social ramifications of business decisions.
Summary of Degree Requirements

The M.B.A. program is a graduate-level, twelve-course, 36-credit hour program. It consists of seven common core courses, a 6-credit thesis and three advanced elective/concentration courses. 6 of the common core courses provide broad exposure to the functional areas of management. The seventh common core course, Strategic Management and Policy, is the program’s capstone course and is normally taken during the last term in the program. In their application for admission, students must specify whether they are interested in pursuing the Generalist M.B.A. program or a program with a concentration in Finance, Marketing, Strategic Human Resource Management, and Leadership. The Industry-Based Applied Thesis is mandatory for all students and counts as a 6-credit core course.

Students in the MBA program who choose a concentration should complete 12 courses out of which 3 are concentration courses. For those who opt to complete an additional concentration, they need to take 3 additional courses from the other chosen concentration.

BECOME ONE OF US
Admissions checklist
Please make sure that the following items are included with your application, your admission will depend on the receipt of all necessary documents that are required throughout the review of your application.

Academic Requirements
An earned undergraduate degree from an institution accredited by the Ministry of Education in the U.A.E. or by the relevant national or regional institutional accrediting body in the case of international applicants.

Documents Requirements
• A completed online Application for Admission.
• A 3.00 GPA (on a 4.00 scale) or better in undergraduate study.
• Official and attested transcripts (in English) of academic record from all universities attended.
• Undergraduate / Graduate Diplomas.
• Equivalency letter from the UAE Ministry of Education.
• Confirmation of University Records.
• A statement of the applicant's career objectives.
• Official test scores: TOEFL®/ IELTS™ & (GMAT® for MBA) & (GRE® for MSCM) where relevant.
• Two Professional or Educational References (including contact information).
• Army exemption letter for all UAE nationals.

Program-specific Admission Criteria
• Scores: Graduate Management Admissions Test (GMAT®).
• Applicant’s work experience: Candidates who have a minimum of two years of work experience will be given preference for admission.

Financial Requirements
• Non-refundable application fee of AED 420.
Selection Criteria

All applications for admission to the Graduate program are evaluated by the Graduate Admissions Committee, which consists of the Graduate Program Director as Chair, two Graduate Faculty members appointed by the Program Director, and one representative of the Admissions Office. The Committee employs the following criteria in its applicant evaluation process:

1. Applicant's GMAT scores
2. Applicant's undergraduate GPA
3. Applicant's work experience
4. Applicant's statement of career objectives
5. Graduate Reference Forms/letters from employers and/or university instructors

In using the five preceding criteria to evaluate each candidate, the Committee follows a balanced approach, based on the principle that ample satisfaction by an applicant, of one or more of these criteria, may to a reasonable extent compensate for deficiencies in one or more of the other criteria used in the applicant's evaluation.
The School of Business at AUD is AACSB Accredited. AACSB accreditation assures the highest standards of quality in business education. Currently, less than five percent of the world's business schools have earned AACSB accreditation. SB is inspired by the AACSB high standards of excellence, forward-looking, and globally leading business learning.
